

NO HOMEWORK POLICY

In AKAL ACADEMY KHUIAN SERVER there is no home work policy .All the work has completed in class room under the supervision of teachers .There is no burden on parents. We have one teachers committee. They are checking the home work of students during school hours .students feel free at home as there is no stress of homework .For little kids its very essential to teach them in a very interesting method . learning without tears .with no home work policy a child can enjoy learning without the burden of home work a child can only grow if he /she feel free in school .As children in classes 1 and 2 are too small to sit for long hours doing homework ,they need not to be encouraged in the class to speak about how they spent their evening at home ,the games they played ,the food they ate.
